# MEEVER & MEEVER

**Founded in 1973**, Meever & Meever and its international subsidiaries has seen a steady growth in producing, stockholding, processing, renting, trading and installing steel products related to marine & civil engineering. We specialize in supply of steel sheet piling, welded & seamless steel tubes and anchoring systems distributed, just-in-time, direct to the job sites from our stock yards in The Netherlands, Germany, Poland, UAE and USA and direct ex-mill through our global network.

## MISSION

Our mission is to build a brand name that stands for high quality products, the best possible service and reliable partnership.

## VISION

Our vision is to become the leading provider of steel construction materials and beyond by maintaining the highest possible quality for our products and services and create long term relationships, based on mutual benefit, trust and flexibility. Meever & Meever values corporate social responsibility with regard to our products, services, suppliers and employees. Sustainability, quality and reliability are key for us.

## REALIZED PROJECTS

The Netherlands (Port of Rotterdam), Germany (Port of Hamburg, German Railway), UK (Bicester, Isle of Wight), Norway (Oslo Opera), France, Kazakhstan, Egypt (Suez Canal), Bahrain, Jordan, Oman, UAE, Qatar, Saudi Arabia, Malaysia (Ring road Kuala Lumpur), Singapore (Metro), China, USA, Honduras, Colombia (projects Barranquilla and Buenaventura), Kenia, Nigeria and Tanzania.
